

**Smart Grid Research Center**  
@ Jeonbuk National University, Korea

## SGRC Vision

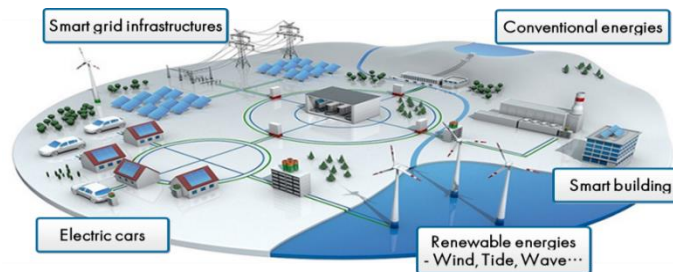

To be the leading research center for developing cutting edge smart grid system technologies and networking with academia and industries

## SGRC Mission

- To actively support research and development of smart grid system technologies
- To develop education programs for the students and engineers who involved in SGRC
- To maintain tightly-coupled relationship between SGRC and the engineers in local and global industry and academia

## SGRC Research

- Electrical power system
- Electrical energy conversion technologies
- Information and communication technologies
- Renewable energy

## SGRC Organizing Committee

### General Chair

Yongsug Suh , Dept. of Electrical Engineering

### Program Chairs

Kyung Soo Kook, Dept. of Electrical Engineering

Jun-Ho Bang, Dept. of IT Applied System Engineering

Ki-Wahn Ryu, Dept. of Aerospace Engineering

### Administrator

Jae Suk Lee, Dept. of Electrical Engineering
